OBJECTIVE

A focused and goal-oriented engineering professional with zeal to make a winning career In Software Development and Testing with IT industry.

Skills in analyzing and Interpreting unique problems, with a combination of project experience and logical and analytical thinking to find the right solutions.

Proficient in Java, mySQL, HTML and CSS. A go-getter with strong communication, coordination, analytical and networking capabilities.

EDUCATION

Bachelor of Computer Science, St.Peter's Engineering College Expected 2025

Intermediate, Sri Gayatri jr College 2019 - 2021

SSC, ZP High School 2018 - 2019

SKILLS

Technical Skills Java,Python,mySql,Html,Css

Soft Skills Communication, Adaptability, Time management, Critical thinking

PROJECTS

A Deep Learning Approach To Reduce The Traffic Congestions. Built a tool which can recognize a moving vehicle on the road and gives us the total number of vehicles passed by. This project is implemented by using Python OpenCV.In this, the video footage which is recorded from the overhead of the roadway surface that is from the traffic surveillance video is given as input and our project will apply the image processing technique, Background subtractor and the Kalman filter to calculate the total no of vehicles passed by that road and gives us the number of vehicles passes by. CERTIFICATIONS

- Completed Google Cloud Computing certification.
- Participated in 6hrs Coding hack-a-thon.
- Participated in Project Expo in College and got third place.

LANGUAGES

- English
- Telugu
- Hindi

ACHIEVEMENTS

- Participation Certificate in District Level athletics
- Club level Cricketer
